Sword

Get paid in stablecoins. Spend it where you live.

The onchain neo bank for people paid across borders.

1% flat fee | 80+ countries | USDC · USDT

— THE STORY

Aisha gets paid in seconds.
Then she can't buy groceries.

Client in Berlin pays
Designer · Lagos

Wallet

1,200 USDC

✓ Received in 3 seconds

→

Grocery store
Accepts Naira only

Total

₦ 48,500

× Can't pay with USDC

— THE PROBLEM

Getting paid is solved.
Using the money isn't.

P2P trades get banks frozen

Selling stablecoins to strangers flags accounts. One trade can lock your bank.

Crypto cards keep shutting down

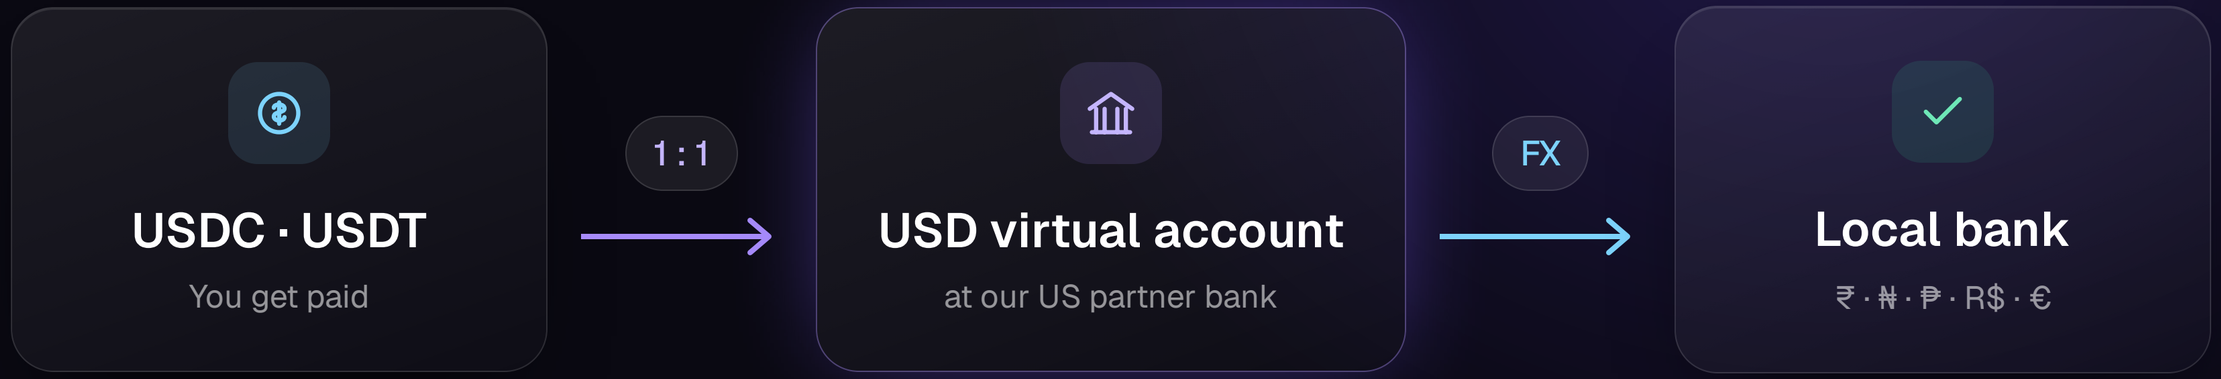

Provider after provider closes. Users lose access overnight.

Banks don't recognise stablecoins

Millions use them. Most governments still don't regulate them.

— THE SOLUTION

Stablecoins in. Local money out.

Your local bank never touches crypto

1% flat fee

— TECH

Fully onchain. You choose the custody.

A deposit contract for every order

Every payment, refund and subscription lives in a contract. No admin keys over funds.

Custodial

Sign in with Google. No wallet, no gas. We run it for you.

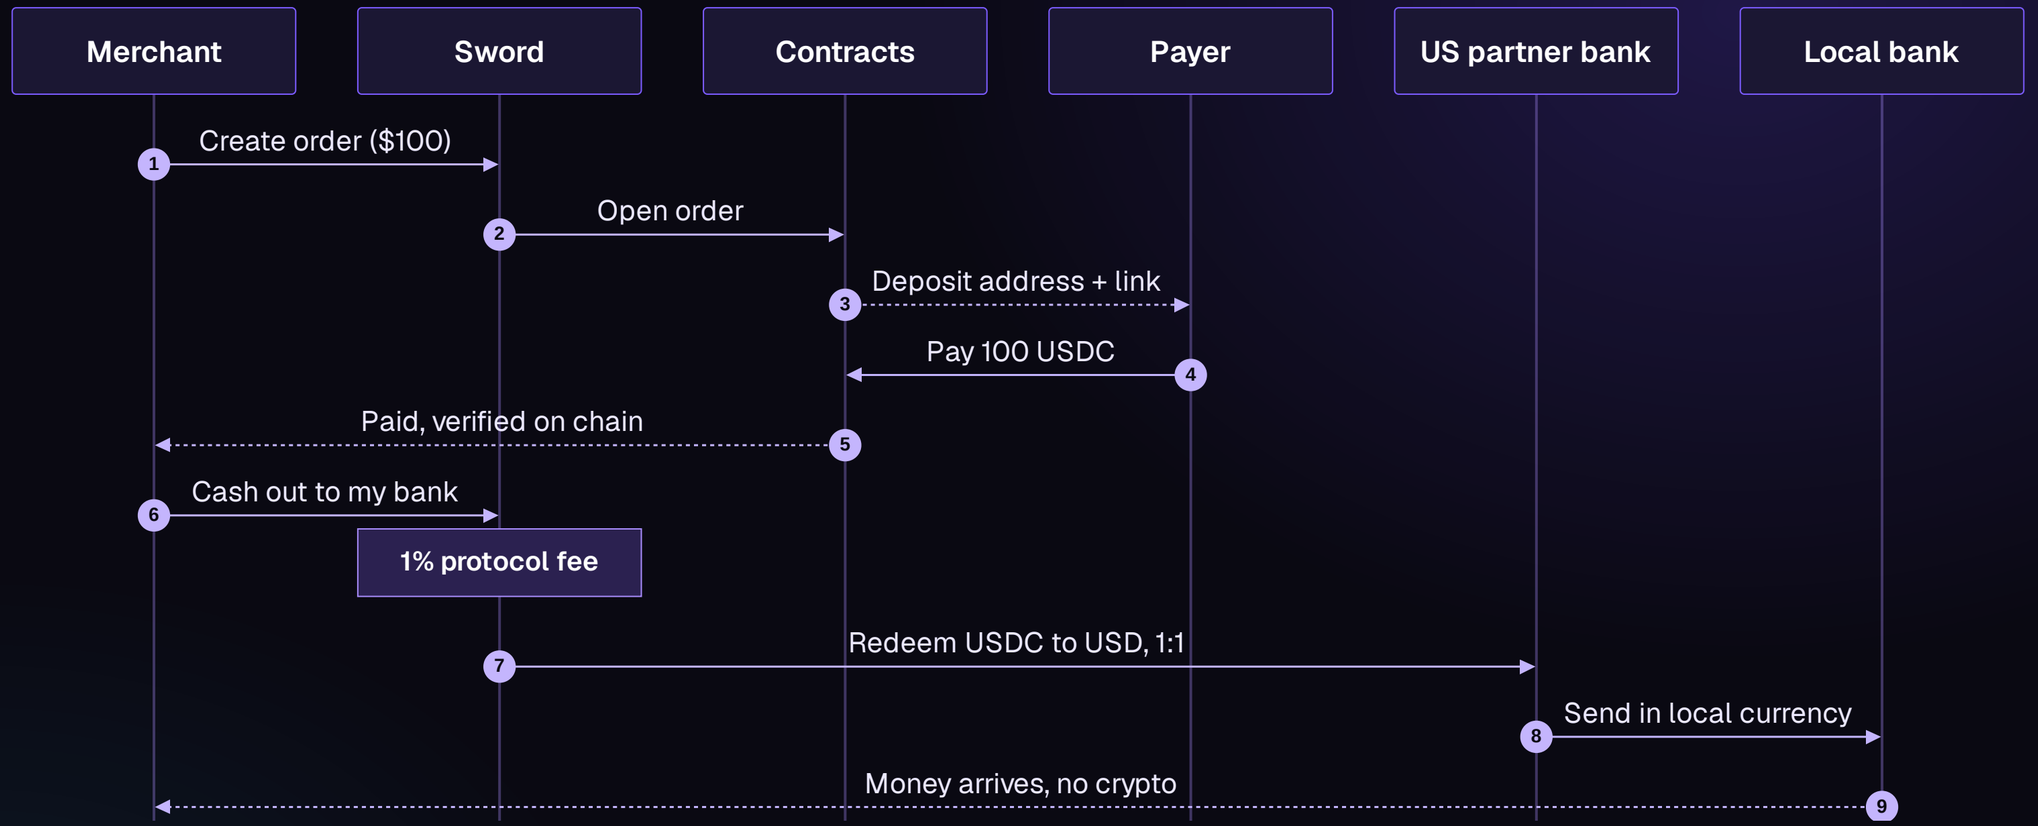

Self-custody

Your wallet, your keys. Sign one spending limit, revoke anytime.

Solidity · TypeScript SDKs · Hono API · Next.js · Postgres · Arc · USDC · Whitechain · USDT

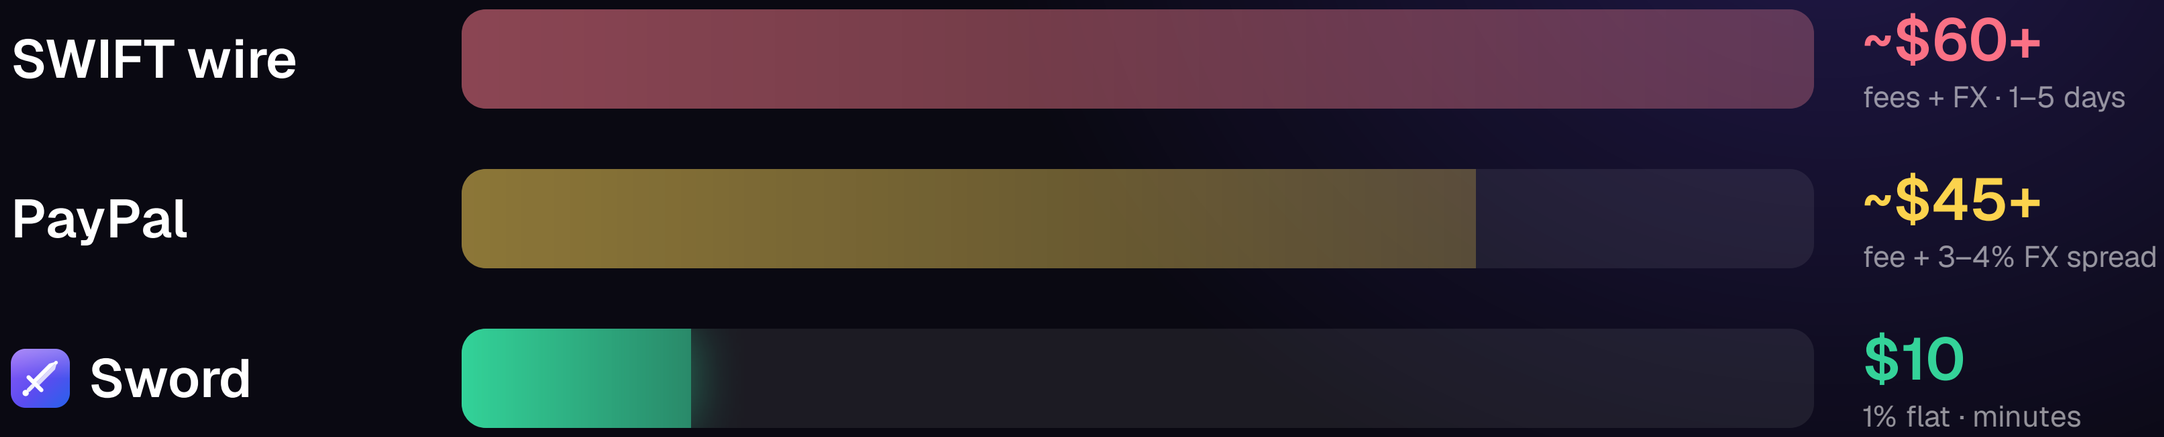

— HOW IT WORKS

From order to local bank.

— COMPETITION

Moving $1,000 abroad shouldn't cost $60.

Typical cost to send $1,000 across borders. Estimates; varies by country and provider.

— BUSINESS MODEL

1%

protocol fee

On every payment and cash-out. Flat, shown upfront.

Monthly volume	Revenue
$1M	$10K
$10M	$100K
$100M	$1M

— GO TO MARKET

Start with the people who feel it most.

PHASE 1

Freelancers & remote workers

India, Nigeria, Philippines, Argentina, Pakistan.

- Freelancer communities
- Web3 job boards
- Referrals

PHASE 2

Merchants selling abroad

Payment links, QR, subscriptions. Paid in stablecoins, settled locally.

- Online stores
- Agencies
- Creators

PHASE 3

Platforms via API

Marketplaces, DAOs and payroll tools pay out globally with one SDK.

- Marketplaces
- DAOs
- Payroll

— WHAT'S NEXT

From testnet to every wallet.

NOW
Contracts, SDKs & API live on testnet

NEXT
US partner bank live & mainnet launch

THEN
Mobile app & 80+ countries

LATER
Payroll, invoicing & USD savings

Get paid in stablecoins.
Spend it where you live.
